Professional Summary

AI & Python Full Stack Developer with experience in enterprise SaaS applications, AI-powered web platforms, React.js, FastAPI, REST APIs, requirement analysis, AI recommendation systems, semantic resume matching, and Agile software development. Passionate about building AI-enabled products that solve real-world recruitment and career guidance challenges.

Technical Skills

Languages: Python, JavaScript

Frontend: React.js, HTML, CSS, Tailwind CSS, Bootstrap

Backend: FastAPI, Django, REST APIs

Databases: PostgreSQL, MySQL

Tools: Git, GitHub, VS Code, Jira

Professional Experience

Software Developer Trainee

May 2026–Present

Alstonair Technologies Pvt. Ltd., Bengaluru

Project: Fusteps – AI-Powered College-to-Corporate Platform

- Participated in requirement gathering, workflow analysis, and feature planning for enterprise SaaS applications.
- Worked on the AI-native Fusteps platform to support student, recruiter, and institutional workflows.
- Integrated EduYata to provide AI-powered course recommendations based on identified skill gaps.
- Assisted in integrating TopSca to support assessment-driven learning recommendations.
- Contributed to the Recruiter ROI Insights module by defining recruiter KPIs, analytics, and dashboard workflows to improve hiring insights.
- Implemented AI recommendation workflows for skill-gap analysis and personalized learning paths.
- Collaborated in Agile Scrum using Jira and Git.
- Contributed to product R&D on AI recommendation systems and semantic matching.

Web Design & Full Stack Development Intern

Aug 2025–Dec 2025

Gully Sales Pvt. Ltd., Bengaluru

Project: Kissan Vaahan – Digital Marketplace

- Contributed to end-to-end development of the Kissan Vaahan marketplace for farmers, vendors, and customers.
- Developed responsive interfaces using React.js, HTML5, CSS3, Tailwind CSS, and Bootstrap.
- Assisted in developing FastAPI REST APIs for authentication, product management, and order processing.
- Integrated frontend with backend services and worked with PostgreSQL for data management.
- Participated in testing, debugging, feature enhancements, and performance optimization.
- Collaborated with designers and developers to deliver scalable application features.

Academic Projects

Automated Resume Screening & Ranking Using AI

Tech Stack: React.js, FastAPI, PostgreSQL

- Developed an AI-powered recruitment platform for automated resume screening and candidate ranking.

- Implemented NLP-based resume parsing and job matching using TF-IDF and Cosine Similarity.
- Built an AI Mentor module to compare resumes with job descriptions, identify skill gaps, and recommend courses, projects, and resume improvements.
- Developed recruiter dashboards with AI-generated candidate rankings.

AI Job Scam Detector

Tech Stack: Python, NLP, Machine Learning

- Developed an AI-powered application to identify fraudulent job postings using Natural Language Processing.
- Applied TF-IDF, semantic analysis, and feature extraction to classify genuine and fraudulent jobs.
- Generated AI-based risk scores with explainable insights for job verification.

Education

Sri Krishna Institute of Technology
Bachelor of Engineering in Computer Science & Engineering
CGPA: **7.4**

2022–2026

Certifications

- Data Structures and Algorithms with Java – Infosys Springboard
- Big Data Computing – NPTEL
- Machine Learning for Beginners – Simplilearn

Achievements

- Participated in the **Software Development Hackathon** organized by **Snestron Systems**, demonstrating innovation, teamwork, and problem-solving skills in developing AI-driven software solutions.
